

Summer Research Program 2024 – Projects

Project #3

Title: Grown-up individuals with autism spectrum disorder (ASD) in Qatar

Description: This study aims to explore the number of adult cases with ASD living in Qatar, examine the demographic and medical history of these cases, and to create a registry for adolescents and adults with ASD within the context of Qatar. The findings of this study will provide information for policymakers on the number of grown-up individuals with ASD living in Qatar and will yield the first registry data for this age group in Qatar.

Mentors: Dr. Fouad A. Al-Shaban, Principal Investigator. Email: falshaban@hbku.edu.qa, Iman Ghazal, Senior Research Associate. Email: ighazal@hbku.edu.qa, Fatema AlZahra Al-Faraj, Research Assistant. Email: falfaraj@hbku.edu.qa
